Boost Your Career

A large ecosystem for research and innovation including class-leading infrastructures and several of Genopole's scientific partners

Gene.iO: one year to successfully complete a fundraising initiative or commercial agreement!

Discover also: [The Shaker: From The Idea To The Project](#)

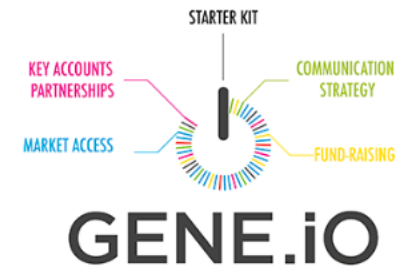

[The ATIGE Program](#)

- ✓ a €20,000 repayable advance
- ✓ choice of 4 Strategy Packs
- ✓ Diag 360°
- ✓ financial assistance for localization
- ✓ support from a reliable and committed mentor

Gene.io is a programme that speeds up the process of obtaining initial financing or signing a first commercial agreement. Initial fundraising is a crucial step for innovative biotechs and a key condition for developing a new product/service and entering the market.

Who can apply?

A Call for Applications is launched each year. Applicants can be biotechnology companies (post-POC) seeking investors or business partners in Genopole's priority sectors:

4 Expertise packs

Each company selects the Expertise packs according to its needs:

- Market access
- Fundraising
- Key Account partnerships
- Communication

Call for applications open!
